WHO WE ARE

Landfall Owner Services (LOS) is a program provided by the COA offering individual maintenance services available to all Landfall owners/residents. These programs are completed in-house with the Landfall maintenance teams working in a "for-profit" mode. This money is used to fund maintenance operations, and any profits are returned to the community to offset dues and to help fund new projects. By utilizing Landfall Maintenance's LOS program, you are keeping your money in Landfall and supporting the continued success of your community.
